

## **Research Articles to Support Efficacy of ABA and To Support Insurance Coverage for ABA Services**

1. See references below.
2. Print the Lovaas study, American Pediatric Journal recommendation and the surgeon general recommendation as ABA as the choice for autism.  
<http://www.aba4autism.org/InsuranceIndex.html>  
we used these articles get coverage and these are what parents are using to regain insurance coverage in Indianapolis. Our Founder has spoken to insurance companies and regained coverage for the children by stating that other therapies are "investigational" because there are no studies to back them such as; speech, OT, physical therapy, etc. I think this makes perfectly good sense, I just never thought of it that way.
